

# **Extending the EU ETS by including terrestrial traffic**

The Environment Committee of the EU Parliament has voted to that road transport and shipping should be incorporated into the EU ETS and demanded the Commission to propose appropriate amendments as soon as possible.

bvek will present and explain its proposal demonstrating that the inclusion of road traffic would be very simple with ignorable additional administrative costs and would improve the effectiveness of EU ETS significantly.

**Friday, 12th December 2008  
10:30-12:30,  
Room Chopin in EU Pavilion**

**The bvek Proposal**  
(and the positions of the German car and oil industry)

**Jürgen Hacker**, Chairman bvek

**Comments by and panel discussions with:**

**Avril Doyle**, Member of European Parliament  
Rapporteur EU ETS Environmental Committee

**Further Members of European and German Parliament have been invited.**

**Finally open discussion**
